Highlights															
Goosander															
	in June, 2 female	Goosan	ders	were	sno	tted									
			veniles, indicating that breeding												
	has again taken p					place. Juveniles bred in 2013 the Markeaton sighting list was									
Shoveller															
			rs, not reported in the last 15												
	years														
Little Egret	Single birds have been reported on occasional														
	dates, and are part of the pattern of Little Egrets														
	spreading further North across the UK														
Peregrine	Only one sighting	g in the y	ear, i	n Jul	y, pr	obal	oly								
	from the Derby cathedral pair, and prospecting for														
	food for the young birds														
	_														
Buzzard	Far more frequently seen, and heard, than in prior years, recognising the continued increase in														
	Buzzard population
